### Valic marks down Flipkart's value by a quarter in a year

US-based insurance corporation Valie has marked down the value of India's largest e-commerce marketphace. Fligkart, in which it is a misority shareholder, by nearly a fourth in the 12 months that ended May 31

In a filing with the US Securities and Exchange Commission. Valie valued Flipkart at \$108.04 a share for the quarter that ended in May, down from \$142.24 in the same period

Going by the share price set by Valie, Flipkart's value has dropped from a peak of \$15 billion in May last year to \$114 bit this year. The drastic markdown of year The drastic markdown of 24 1 per cent comes despite Valic marking up the value of the company by 10 per cent in its latest filing, from \$58-19 per share in the quarter that ended February 29. Flipkart, whose competitive position has come under affack. position has come under attack from US -ecommerce grant Amazon, has been subject to markdowns from multiple myestors — Morgan Stanley, T Rowe Price, Vangaard and Fidelity, I'x difficult to proposit the valuation, as each company sets its own price, if ranges from \$16.5 to \$13.5 m.

"Overall these are financial cycles that happen in the whole world. I think the internet sector itself is going through a down cycle but as the positive cycles

Experts say people shouldn't read too much into the valuations given by mutual funds and other big investors, once these are often calculated keeping in much the overall performance of a sector. Prices of e-commerce and information lechnology stocks have taken a beating after the linitial Public Offers of equity in GoPro and Box Weren't well received.

In India, while funding in the start-up and especially e-commerce markets is going funding hereby a full growth of the sorter remains healthy. Sector watchers say the growth slowed a fulle due to a reduction in peculiarity pricing practices by Fliphart. Saupdead and Amazon but the fundamentals remains strong and the support of the fundamentals. remain strong

However, while Flipkart might write off these markdowns as a 'theoretical excesse" in co-lounder Binny Bansal's words, the drop in value could have adverse offects on the ability to raise money of a valuation higher than its previous round at \$15 bn. With Amazon becoming more aggressive in India, it seems the premium Flipkart once demanded for the lead it held is slowly

### Infosys builds tool to predict attrition, help in retaining top talent

Infosys, India's second largest software company, has built a predictive fool to identify performers, measure organisational licalth, and seek and retain talent

"We have developed an algorithm that can give us a heads-up on people at the risk of attrition. This approach enables managers to make personalised retention solutions for retention solutions for individuals," said Krishnamurthy Shankar, group head for human resources.

Infosys Chief Executive Officer Vishal Sikka is pushing atomation in a quest to make the ampany generate higher revenue company general ringuer research per employee. Infosys also faced 21 per cent attrition in the June quarter, the highest rate since Sikka took over.

of high performers had declined to 11.2 per cent during the quarter. Along with reporting and deepdive analysis, Intosys has been using big data and productive analytics to formulate a retention strategy

"We have used analytics to identify key talent. We have created an algorithm to identify the criticality of each employee from the skills and experience point of view," Shankar said.

"This is helpful to managers in making career plans for their teams and identifying training and development needs," he added

models to understand our current talent mix, inflow and outflow of falent, internal to external biring mix, and the impact of these on operations," Shankar said.

DYNAMIC INDUSTRIES LIMITED

### India has only 3% share in world mobile revenue

With nearly a hillion subseribers, India is the world's second largest mobile market. No wonder, every sixth subseriber of mobile device across the world is an Indian Blut when it comes to revenues, India is a psymy, with average monthly spends of \$4 per user or 2.7 per cent of the world's.

Mobile rates in India are ong the lowest in the world. In among the lowest in the world in other Asian markets, average user spends is a little over \$20 a month. At the end of 2015. Indian telecomervenues stood at \$31 billion, compared with global revenues of \$1,093 billion

Round Shetty, partner and head of telecom at KPMG, says: "While average user spends central for the cost structure for equipment remains the same across the world. As a result, the linancial health of the sector will remain under pressure for the next couple of years, as telecon have invested

India is a mass market and, therefore, what Indian telecom companies cannot make in terms of value is compensated through volumes

returns have been as low as one per cent, according to Cellular Operators Association of India's presentation to the Supreme Cour while challenging the telecom regulator's rules on call drops.

Financials are further pressured because of intense competition. Unlike most markets, which have three or foor; india has almost 10 players, leaving little pricing power in the hands of telecom companies.

The acctor's financials continue to be stretched because of high rovestments At the end of June quarter, the sector's set debt stoned afts 290,096 erore. Despite the high gearing, fedors will have to continue borrowing as technology obsoleacence is very high, in view of fliss the sector should be kept free from regulatory risks, says Rajan Mathews, director general COAI

This a matter of concern when Telecom Regulatory Authority of India (Trai) comes out with 23 consultation papers. Risks from lower interconnect charges and OTT players will slart upsetting the apple cart as these measures. impact profitability and revenues of market," he added.

### Mumbai airport invites bids for lease of five plots

Mumbai International Airport Limited (MIAL) has revited bids to lease five land parcels, as it tres to start a much delayed commercial

The 13 series are close to the international terminal Estate consultants estimate MIAL could earn Rs 1,500 crore in deposits and rent from the transactions.

MIA), plans to convert the area surrounding the airport into GVK Skyerty, a destination for hospitality, commerce retail and leistere. It envisages lensing 20 million square feet of commercual space. The Skyetty will also have three metro stations.

The GVK group, which owns MtAL is developing the sirport on 36-year concession from the Airports Authority of India, MtAL took over management of the auport in 2007, MtAL had invited and office complexes around the

It had come near to finalising a deal to lease 5.5 acres for Rs 580 ecrore in deposit and real According to the the engined plan for the privatisation of the Mumbai sirpert, real estate leases were to be was da scapital for the project. The airport operator was to raise Pe 1,000 crore from real costate development by 2013.

But commercial development was held up by delays in securing clearances and shifting utilities. Also, the land was being used for airpost work. A MIAL spokesperson did not respond to

Ajay Jain, executive director, investment banking. Centrum Capital, said. I feel the response (to the lease bids) will be sluggish. The catchment area needs a lot of Developers also face height restrictions near the airport

# **Textile** industry awaits **GST** rate

The textile industry is dung to see what the final rate watering to see what the final rate of an under the proposed goods and service tax (GST) regime would be.

This is because of the tax implications the new faw will have on major input goods going into the textile production process such as cotton and man-made fibres.

on the textile sector, especially affecting cotton value chain. Currently, cotton altracts zero central excise duty under the optional route.

With an optional daily structure at the notion yarn stage itself, the downstream sectors — weaving processing and garments — also operate under the optional route Amf Gupta, "tree-president," ecoporate sector ratings at ICRA, said. "This is reflected in the less than one per cent effective excise than one per cent effective excise duty rate applicable to 480 spinning and weaving companies rated by ICRA, which accounted for Rs 57,000-crore revenue during FY15"

On the positive side, under GST, textile players oriented towards dementic markets will be able to await STC on domestic capital goods but not the import duty as their sales will be subject to GST Accordingly, this will reduce the cost of capital investments and hence will be positive for the players operating in domestic markets.

# Wipro chairman Azim Premji and HCL co-founder Shiv Nadar are the only two billionaires from India in Forbes' list of the world's 100 richest people in technology, ranking in the top 20 abead of Google boss Eric Schmidt and Nadar co-founded HC1 which

Nadar co-founded FCL, Water is reportedly mulling a US listing. Forbes said, adding Nadar also owns HCL. TalentCare, a skilledevelopment firm. His state venture is a \$500-million fund to invest in startups and US health care technology firms. — PTJ. New York.

Wadhwani comes in on the 67th position with a \$3 billion not worth. A recipient of the 2013 Forbes. India. Non-Resident Philanthropist Award, Wadhwani announced in 2015 that he plans to commit up to \$1 billion to find. repreneurship initiatives in

Forbes said despite a turnultuous year for the stock market, "it was a good time to be a tech billionaire"

This Kslanick.

The '190 Richest Tech Billionaires In The World 2016 list has been topped by Microsoft founder Bill Gates with an estimated fortune of \$78 billion. Pennji ranks 13th on the list, with an extend of \$16 billion and Nadar comes on the 17th spot, with an extendion of net worth. Indian-American technology caras "Symphony Technology Group CEO Romeah Wadhwari and founders of IT (information technology) consulting and outsourteing company Syntel Bharar Desat and his wife Neerja Selhi ... are also on the list The titans on Forbes' second Forbes said Premit, who heads annual list of the world's richest in technology are world a combined USD 892 billion, six per cent more than a year ago. Just over half of the 100 richest in tech are from the

number of tech tyecons, with 19
people worth a combined USD
132.7 billien. The richest Chinese
member is Alibaba found Jack
Ma, who is on the 8th spot and
has an estimated net worth of USD. 25.8 billion Canada has five tech officeraires and Germany has four

Forbes said the second richest person in tech Amazon founder and CEO Jeff Pezos is also the biggest gainer on the list this year and has an estimated USD 662 billion fortune, an increase of USD 184 billion fortune, an increase of uSD 184 billion since this this was released last year. That puts him ahead of Oracle chairman Larry Elbison, who comes in on the other persons.

Ellison was also beaten by Facebook founder and CEO Maik Zuckerberg, who climbed from fourth to third place thanks to a 30 percent jump in the value of Facebook's stock, he is now also California's richest person, another tiffe that previously belouged to Ellison.

### RBL Bank Limited Public Issue to open on August 19, 2016

#### Price Band fixed from Rs. 224 to Rs. 225 per Equity Share

RBL. Bank Limited (the Tbank' or "Issuer") proposes to open on August 19, 2016, a public issue of epity shares of face value Rs. 10 cach ("Equity Shares") as a Price Band Irom Rs. 224 to Rs. 225 per Equity Share underlaing a share premium (the "Issue"). comprising a frice issue of Equity Shares lost the Comprising a frice issue of Equity Shares by the Bank aggregating on to Rs. 8.325 million (the Tixel Issue") and an offer for sale up to 10.90 (528 Equity Shares by certain selling shareholders (the "Offior Fox Sales"). ## Vision 2020: India to grow at 7.7%, China at 6.4%

Notwithstanding the scepticism over the new gross domestic product (GDP) humbers, India is likely to be the fastest-growing emerging economy till at least the end of the current decade.

McKinsey, in a new report, projects fadia to grow at 7.7 per cent between 2016 and 2020 significantly outputing other emerging economies. China is expected to grow at 6.4 per cent over the period, while other expenses are proposed to the period. entergang economies like Brazil and Turkey are likely to grow at 2.2 per cent and 3.3 per cent, respectively.

Rapid tribanisation - as McKinsey estimates India to be 41 per cent tribanised by 2030, approach 1, prirom 31 per cent in 2011 - means growth will be driven primarily by cities and satellite towns. According to estimates presented in the report, readylly 77 per cent of 1 India's economic growth between 2012 and 2025 will cone trom 49 clusters of districts with

Achieving these growth rates over a long stretch of time will radically change the size of the economy with some fladam cities reaching the size of the current middle-income countries. Munthai, for example, will become equivalent to Malaysia of today, representing a massive market opportunity worth \$245 bittion. Delhi's economy will be equal to that of the Plaitippines In fact, Delhi's chorocay will be equal to that of the Plaitippines In fact, Delhi's Amondabad, Hyderabad and Bengalunt together will have an ansual consumption of \$80-\$175 bittion each by 2030. Achieving these growth rate

But as has been pensied out, the report also mentions that sustaining this growth is largely predicated on the degree to which risting urbanisation creates non-farm employment for the evergrowing pool of workers.

McKinsey estimates that India needs to every reached. 15 million
